## **Ixion Models Press Release – Friday November 27<sup>th</sup>, 2009**

*From the Ixion Directors to all our customers*

### **Recall of the N Gauge Mark 1 Manor locomotive models, and delivery of 7816 *Frilsham Manor* and 7823 *Hook Norton Manor*.**

#### **Production Commences**

As you know, our Anglo-Australian company Ixion Model Railways released its first N gauge locomotive, the GWR/BR 4-6-0 78XX Manor class, at the International N Gauge Exhibition at Leamington Spa in September 2008. It was subsequently found to be not to scale, and replacement correct-scale models were promised.

*Ixion is delighted to announce that manufacturing of the Mk 2 Manors has commenced, with delivery anticipated in March 2010.* Photographs of the final version of the new Manor can be viewed on our website – see web address below. We thank you for your patience.

#### **Request for Return of Mk 1 Manors**

Ixion is asking all our customers to return their Mk 1 Manors. Customers who took delivery of their models of 7800 *Torquay Manor* and 7808 *Cookham Manor* should have received copies of a separate letter giving details of the return arrangements. Copies of this letter can be found on the Ixion and Dapol websites – see the addresses below.

#### **7816 *Frilsham Manor* and 7823 *Hook Norton Manor***

Customers who ordered models of either 7816 *Frilsham Manor* and 7823 *Hook Norton Manor* did not receive their locos, as production was halted before these were delivered. Ixion would like to assure customers that ALL versions of the Manor will be delivered and released on the same day, so all customers will then receive their Manors without delay.

#### **What this letter means**

Receipt of this letter indicates that either Dapol Model Railways (in the northern hemisphere) or Ixion Model Railways (in the southern hemisphere) are holding an order in your name for one of the above two locomotives. As soon as we have your model, we will ship it to you.

**If there are any changes to your postal address or contact details, please advise us immediately, so that no delay will be experienced in receiving your model.**
